

MUHAMMAD FARAZ

FULL STACK WEB DEVELOPER / MERN STACK ENGINEER

+92-3273644004 | farazsohail081@gmail.com | linkedin.com/in/muhammad-faraz-181261320 | github.com/Faraz081

SUMMARY

Full Stack Developer with expertise in MERN stack, frontend development, and backend architectures. Skilled in JavaScript, React.js, Node.js, and ASP.NET Core to build scalable, responsive web applications. Adept at database management utilizing MongoDB and SQL Server, implementing robust authentication, and managing full CRUD operations. Proven problem-solving and debugging capabilities combined with strong team collaboration and communication skills gained through rigorous academic and technical training. Committed to continuous learning and delivering optimized, user-centric software solutions.

CORE COMPETENCIES

Full Stack Development • MERN Stack • Frontend Development • Backend Development • REST APIs • Responsive Design • Authentication • CRUD Operations • Database Design • Git Version Control • Problem Solving • Team Collaboration

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, Redux Toolkit, Bootstrap, Tailwind CSS, Responsive Web Design, REST API Integration, AJAX, JSON.

Backend Development: Node.js, Express.js, ASP.NET Core, PHP, Laravel, Authentication & Authorization, CRUD Operations, MVC Architecture, Routing, Middleware.

Database Management: MongoDB, MySQL, Microsoft SQL Server, Database Design, Database Management.

Tools & Technologies: Git, GitHub, Visual Studio Code, Microsoft Visual Studio, Firebase, Postman, npm.

Additional Skills: Shorthand (Stenography), Problem Solving, Debugging, Team Collaboration, Communication Skills, Time Management, Continuous Learning.

PROJECTS

Learning Management System

- Designed and developed a comprehensive web application to streamline educational workflows, course deployments, and student evaluations.
- Implemented secure user authentication, role-based controls for instructors/students, and optimized REST APIs for real-time progress tracking.

Fitness Tracker

- Built a dynamic, responsive full-stack application enabling users to set fitness goals, log daily metrics, and monitor health routines.
- Managed database state and integrated interactive analytical modules to provide seamless performance feedback using cutting-edge frontend libraries.

Hotel Management System

- Developed a robust room booking and administrative management portal equipped with fluid CRUD operations and transaction tracking workflows.
- Utilized modular MVC architecture to handle check-ins, room allocations, automated billing calculations, and clean backend routing.

Event Management System

- Engineered an end-to-end event planning application to coordinate scheduling, ticketing, user registrations, and venue management.
- Integrated structured databases with responsive components to handle concurrent data requests and minimize latency during high-traffic updates.

Additional React Projects: Todo App • Counter App • Movie App • Facebook Clone • CRUD Applications

EDUCATION

Aptech Pakistan — Diploma in Software Engineering

2024 – 2027

- Completed Modules: HTML, CSS, JavaScript, Bootstrap, React.js, ASP.NET Core, Node.js, Express.js, PHP, Laravel, MySQL, MongoDB, Tailwind CSS, WordPress.

Benazir Bhutto Shaheed University, Lyari — Bachelor of Science in Information Technology (BSIT)

2022 – 2026

- Relevant Coursework: Programming Fundamentals, Database Systems, Web Development, Software Engineering, Data Structures, Computer Networks.

CERTIFICATIONS

Software Engineering Diploma – Aptech Pakistan

- Training includes: Full Stack Web Development, Frontend Development, Backend Development, Database Management, Software Engineering Concepts, Version Control using Git & GitHub.

Shorthand (Stenography) Certification – Infra Institute (Certified by Sindh Board of Technical Education - SBTE)

- Skills gained: Fast Dictation, Professional Documentation, Office Communication, Typing Accuracy, Note Taking.
